

We are able to allow indoor visits and activities unless we have an outbreak or greater than 10% of COVID-19 in the county. An “outbreak” is considered any single new case of COVID-19. If we have to limit visits or activities related to an outbreak it will be communicated to all residents and representatives.

Please follow the Core Principles while visiting our facility:

Core Principles of COVID-19 Infection Prevention

- Screening of all who enter the facility for signs and symptoms of COVID-19 (e.g., temperature checks, questions about and observations of signs or symptoms), and denial of entry of those with signs or symptoms or those who have had close contact with someone with COVID-19 infection in the prior 14 days (regardless of the visitor’s vaccination status)
- [Hand hygiene](#) (use of alcohol-based hand rub is preferred)
- Face covering or mask (covering mouth and nose) and social distancing at least six feet between persons, *in accordance with CDC guidance*
- Instructional signage throughout the facility and proper visitor education on COVID-19 signs and symptoms, infection control precautions, other applicable facility practices (e.g., use of face covering or mask, specified entries, exits and routes to designated areas, hand hygiene)
- Cleaning and disinfecting high-frequency touched surfaces in the facility often, and designated visitation areas after each visit
- Appropriate staff use of [Personal Protective Equipment \(PPE\)](#)
- Effective cohorting of residents (e.g., separate areas dedicated to COVID-19 care)
- Resident and staff testing conducted as required at 42 CFR § 483.80(h) (see [QSO-20-38-NH Revised](#))

We continue to follow all CMS guidelines to keep our staff and residents safe. Please contact the facility for any further questions.
